Connecticut's **State Innovation Model** initiative invites physicians to participate in the Advanced Medical Home program. Your investment now in practice advancement can generate huge dividends after achieving NCCQA PCMH recognition.

- Develop a stronger bond with your patients leading to healthier outcomes
- Decrease team turnover and boost staff satisfaction
- Qualify for higher primary care fees and quality payments under Medicaid
- Excel in Medicare's Merit Based Incentive Payment System
- Become eligible to participate in new payment models
- Technical assistance is at no cost

What Connecticut's SIM Does...

We work collaboratively with consumers, advocates, providers, employers, health plans, and state agencies to achieve our vision:

Establish a whole-person-centered health care system that improves community health and eliminates health inequities; ensures superior access, quality, and care experience; empowers individuals to actively participate in their health and healthcare; and improves affordability by reducing healthcare costs.
