- APCD
- Other

Reporting:

- Implementation
- Population health
- Healthcare Quality
- Care Experience
- Per Capita Spend

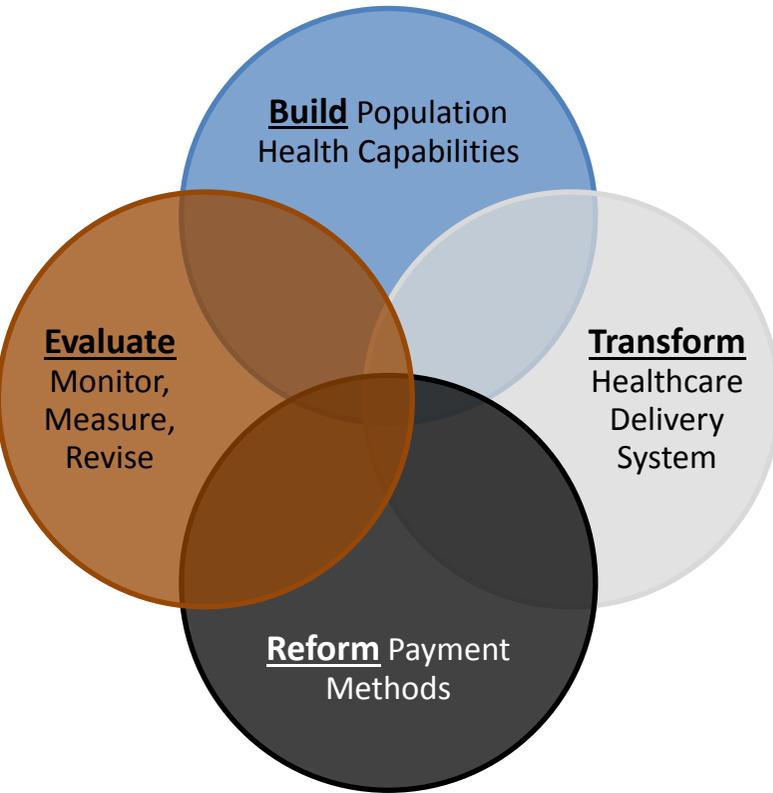

- **MQISSP ⁽¹⁾**
- **Quality Measure Alignment**
 - Core quality
 - Common measures
 - Provider scorecard

Integration with Other State Initiatives (BHH, Wrap-Around, etc)

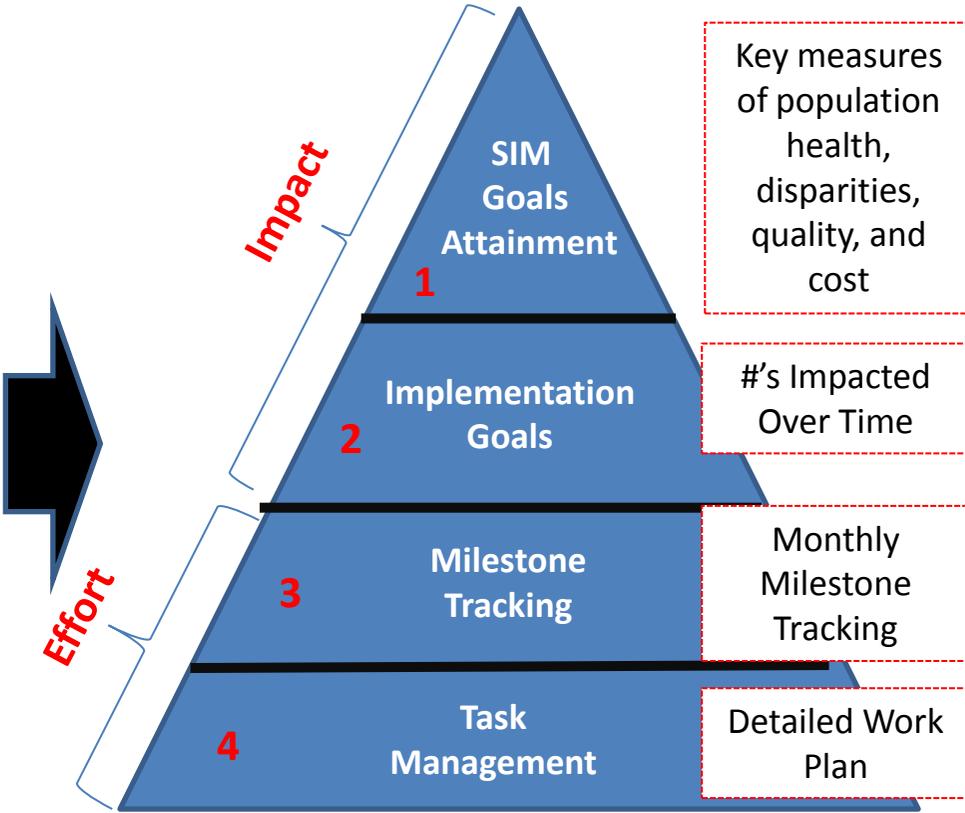

(1) MQISSP is Connecticut's planned Medicaid Quality Improvement and Shared Savings Program that is intended to provide incentives for providers, as well as accompanying tools and techniques through CT SIM funding to improve care and reduce costs.

Performance Reporting Cascade

SIM Components

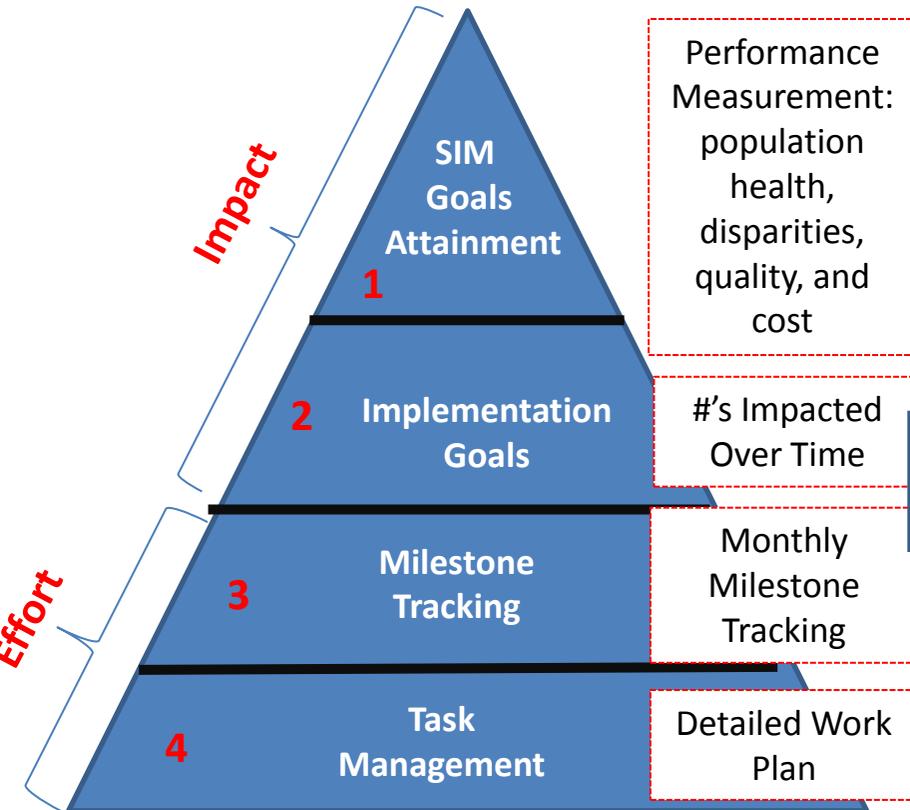

Four Levels of SIM Performance

Integration with Other State Initiatives (BHH, Wrap-Around, etc)

Performance Reporting Cascade

Four Levels of SIM Performance

Source	Freq.	Purpose	Audience
SIM Model Test Narratives	Bi-Annual	Overall Aggregated Health Impact of Initiatives	Public & SIM Stakeholders
SIM PMO	Quarterly	Consumers, Providers and Employers Impacted	SIM Stakeholders & CMMI
SIM PMO	Monthly	Success in Achieving Milestones	HISC
SIM PMO	Bi-monthly	Success in Completing Worksteps	Core Team
